

Item Upgrading

Um Items aufzuwerten, braucht man Credits oder Uridium. Die Erfolgchancen sind immer um 5% aufwertbar, das heißt 5%, 10%, 15% usw. Zu beachten ist, dass nach jedem Level der Preis für die Erfolgchance steigt.

Die folgenden Tabellen enthalten die Prozente und Preise für ein Upgrade von Items (Quelle: http://de.darkorbit.wikia.com/wiki/Item_Upgrade_System). Der dabei lila markierte Anteil kennzeichnet einen „idealen“ Weg, auf dem die Items am günstigsten und vergleichsweise schnell bis zum Maximal-Level aufgebaut werden können.

Hinweis: Es handelt sich hierbei um einen Vorschlag! Da es sich um Wahrscheinlichkeiten handelt, muss der Upgrade-Verlauf nicht so sein, wie er hier angegeben wurde.

Kostengünstigster Weg

Unten in den Tabellen sind einige Felder lila hinterlegt. Wenn man zum Upgraden diese Prozentzahlen nimmt, spart man viel Uridium/Credits im Gegensatz zum Upgraden mit 100%. Natürlich kann ein Versuch mit weniger als 100% fehlschlagen, aber hierzu ein kleines Beispiel:

Man hat einen Laser und möchte ihn auf Level 2 bringen. Das würde bei 100% 3905 Uridium kosten. Mit den empfohlenen 25% (530 Uridium) kann es ruhig 5x fehlschlagen und erst beim 6.ten mal klappen, denn $6 \times 530 = 3180$. Also spart man Uridium. Meistens schlägt es bei 25% nur 3-4 mal fehl. Folgt man ganz genau der obigen Empfehlung, kann es natürlich passieren, dass man in einem Schritt mehr Uridium ausgibt, im nächsten Schritt aber wieder spart.

Diese Empfehlungen basieren auf statistischen Berechnungen zu der Wahrscheinlichkeit und den entsprechend benötigten Wiederholungen. Im Einzelfall kann dieser Weg natürlich viel mehr kosten als wenn man immer 100% nehmen würde. Mit hoher Wahrscheinlichkeit spart man jedoch eine Menge Uridium/Credits.
